

### Guaranteed Pay Checks Plan of Eastern Factory Proves Success

By DETLEF R. PETERSEN  
United Press Staff Correspondent  
MILWAUKEE (U.P.)—The first year's success of the Nunn-Bush Shoe company's plan, guaranteeing employees 52 uniform pay checks yearly and steady jobs despite business fluctuations may lead to its adoption in other industries throughout the United States.

President Henry L. Nunn whose company inaugurated the steady pay plan in the fluctuating shoe industry 13 months ago, revealed that more than 86 large industrial concerns have sought information concerning it.

"The plan has been so successful here that, judging from the numerous requests about it, I wouldn't be surprised to see other industries adopt such a scheme," Nunn said. "I know a lot of industrial executives are thinking about the plan, anyway."

**Workers Share**  
The plan is simple. It guarantees workers a "fixed percentage of the value of every pair of shoes produced," Nunn explained.

"We're really partners here," Nunn asserted. "The workers are secure in their jobs and no one fears what the future may bring in the way of economic depressions."

The plan has the endorsement of the company's 700 employees who joined with the management recently in observing its first anniversary.

The scheme was first put into operation in July, 1935, for a six-months experimental period. At the end of that period, the plan had proved so successful that it was adopted on a yearly basis. The 700 employees signed one-year contracts last January.

The average wage per worker this year has been set at \$1.20, or 19 1/2 percent higher than when the plan first was adopted. Nunn also pointed out that employees received 12 1/2 percent more in salaries during the last year, that they did during the preceding year.

**Adjusted Compensation**  
Under the plan, the company each January estimates the employees' annual salaries. They are budgeted into 52 weekly installments. Should the earnings of employees exceed estimates the difference will be made up at the end of the year in adjusted compensation.

On the other hand, should business decline and weekly payments amount to more than the fixed percentage of total output, salaries necessarily would be lowered. But, Nunn explained, the worker still would have his job and a pay check every week.

Adjusted compensation after the original six months of the plan's operation totaled \$7,082, Nunn said. For the first six months of this year it reached approximately \$19,500. Thus, the first year of the plan's operation netted employees \$26,582 in adjusted compensation.

Good quality is the chief requisite of Munn-Bush company's employees. Never has a worker been discharged for slowness, the president said.

"Life is just one grand sweet song out here," explained the good-humored executive, who pedals his bicycle to and from

### Funeral Rites Held Tuesday

Funeral services were held Tuesday, Sept. 8, for Henry Dawes Carter, 69, who passed away at the home of his son, William W. Carter, 2630 237th street, Torrance, on Sept. 3. Rev. Rothgeb, of the Calvary church, Lomita, conducted the services which were held at the A. M. G. & M. Mortuary. Interment was made at Roosevelt Memorial park. Mr. Carter had been in failing health for a long time.

work daily while many of his employees use automobiles.

### Torrance Boys At Air Races

Thanks to Harry Slover and Jack Miller, 80 boys of Torrance were able to attend the National Air Races last Friday afternoon and had the times of their lives. Slover secured the tickets thru the courtesy of the Los Angeles Junior Chamber of Commerce and Mr. Miller furnished one of his big furniture trucks to provide transportation. The boys had excellent seats in the grandstand where they were able to see all the events and thoroughly enjoyed the trip.
